RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir :

This is in reply to the Office Action of April 23, 2004 which required election of a single species. The due date for response is May 23, 2004.

The alleged species are as follows:

- Species I corresponding to Figure 1;
- Species II corresponding to Figure 7; and
- Species III corresponding to Figure 9.

Applicant elects Species II, corresponding to Figure 7, for examination in this application. This election is made with traverse for the following reasons.

First, Applicant submits that, in addition to claim 1, claim 23 also is generic. Applicant regards claim 23 as a generic method claim.

Next, Applicant notes that in the Office Action, the Examiner provided a listing of claims purportedly corresponding to each of the three alleged species. Applicant acquiesces in the Examiner's conclusion regarding the claims which read upon alleged

Species I. However, Applicant respectfully disagrees with the Examiner's listing of the claims in connection with Species II and Species III. Rather, Applicant urges that Species II, if corresponding to Figure 7, then corresponds to claims 1, 2, 8-14, 21, 22, 23, 24, 25, 26 and 27. Species III, if corresponding to Figure 9, then corresponds to claims 1-2, 15-21, 22, 23, 24, 25, 26 and 27. The underlining indicates additional claims designated by the Applicant.

In view of the foregoing, Applicant elects Species II, but respectfully submits that this species is described by several more claims than the Examiner has indicated. In particular, claims 1, 2 and 23-25 must be added to the listing of claims of alleged Species II. Further, at this time, Applicant expressly reserves the right to file divisional applications directed to claims of the non-elected species.

It is submitted that this application now is in condition for examination on the merits and early action in that regard is earnestly solicited.

Respectfully submitted,
